

NORSK RIKSKRINGKASTING

SENTRALBORD 46 38 20 / TELEGRAMADRESSE STUDIO / SUHMSGATE 23

Oslo, January 23rd 1953.

GN/Hj.K.

Mr. Kermit Geary,
R.F.D. No. 2,
Walnutport,
Pennsylvania,
U.S.A.

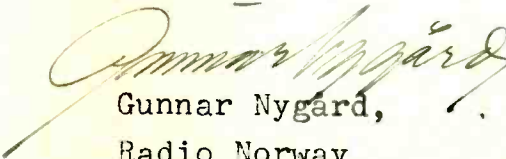

Dear Sir,

Thank you very much for your extensive report on our broadcasting transmitter at Vigra, station LKA on 629 kc.s.

Your observations were quite correct, and we are happy to send you our QSL-card, together with our short wave winter schedule. We are also enclosing a small folder on the Broadcastinghouse in Oslo and the music for the different signals used in our transmissions. The two pictures are of one of the masts carrying the antennae of our one hundred kW transmitter of Vigra. Vigra is a small island located a few miles NW of the city of Ålesund on the western coast of southern Norway.

On behalf of the station master of the Vigra transmitter and all our personell, I want to express our sincerest thanks for your good wishes, and we are all sending our best regards.

Yours very truly,

Gunnar Nygård,
Radio Norway
Short Wave Division.
