Dear Mr. Geary,

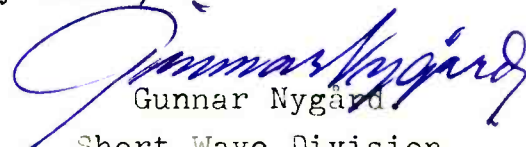

Thank you so much for your extensive report on Radio Norway's transmission on the frequency 890 kc/s., equal to 337 m.. This wavelength is utilized by three of our transmitters, which are synchronized: Bergen, Kristiansand and Trondheim, each of which are of 20.000 watts.

./.

Enclosed you will find our Short Wave Schedule number IV, which is still in use. A few alterations have been made to facilitate the present conditions. In the attached sheet the changes are underlined.

Thanking you for your kind cooperation, I am,

Sincerely Yours,

Gunnar Nygård
Short Wave Division.
