SOC. ANÔNIMA COOPERATIVA DE RESPONSABILIDADE LIMITADA

PAREDE-PORTUGAL

No. 74.887

Parede, October 27th, 1956.

Mr. Kermit Geary,  
R.D. 2, Box 298,  
Walnutport,  
Pennsylvania,  
U.S.A.,

Dear Sir,

We received your letter dated October 12 and we thank you for the kind and complete information on the reception of our station CSB9.

Radio Clube Portugues has actually two medium wave stations, one located in Parede and still working on 1034 kc/s (CSB2) and a new one located in Miramar, near Porto, working on 782 kc/s with 100 kW carrier power (CSB9).

Your reception log is therefore correct and the QSL card will be send directly to you by the Station Director.

We would greatly appreciate your information on the reception of the station over a period of about two weeks just to certify if propagation conditions are steady or occasional.

We hope you continue to enjoy our programs and we thank you for the kind wishes you addressed to us.

Sincerely yours,  
RADIO CLUBE PORTUGUES

Eng. Manuel de Vasconcelos e Menezes,  
Technical Director.

MM/mla.
