

December 12, 1991

Mr. Kermit Geary
1266 Riverview Drive
Walnutport, Pa. 18088

Dear Kermit,

This letter is in response to your recent request for verification of reception of a most unusual circumstance in radio broadcasting.

The signal you received on 1550 KHz in Walnutport, Pennsylvania, is from WAMA-AM Radio. This station has been rebroadcasting our WUSA-FM "W-101" audio feed from just after 10 PM to 6 AM local time for several months with-out our permission!

WDAE-AM 1250 KHz and WUSA-FM "W-101" 100.7 MHz Radio Stations are owned and operated by Gannett Co., Inc. This organization and it's employees (including myself) have no connection to WAMA-AM 1550 Radio in any way.

I have contacted WAMA's Operations Manager, John Rodriguez, and WAMA's Chief Engineer, Arthur Karmgard about this problem on several occasions. They both tell me that they are aware of it and are working on a solution. They tell me that they believe their TFT remote control unit "glitches" and turns their transmitter back on and feeds the W-101 signal to it just after their 10 PM sign-off man switches everything off and goes home.

To conclude, I am confirming your reception of WUSA-FM radio programming as transmitted by WAMA-AM.

Incidentally, Our AM station, WDAE, has no roll in this mess.

Best Regards,

A handwritten signature in black ink, appearing to read "Lloyd Berg".

Lloyd Berg
Chief Engineer WDAE / WUSA  **GANNETT**
