Mr. Hermit Geary
Walnutport
Penn.

Dear Mr. Geary:

I certainly do appreciate your fine letter reporting your reception of our station's special broadcast to the DX listeners on February 1st.

When we receive letters written as well as yours was we too enjoy being of service to you.

I was indeed surprised to read your report and find that our signal was so strong in that vicinity.

We have a Western Electric Grid modulated, 250 watts, transmitter which feeds a $\frac{1}{4}$ wave vertical lingo antenna.

I wish to thank you again for your exceptionally interesting letter, and may I also wish you much success with your DX reports.

Please consider this as your verification.

Sincerely yours,

Howard C. Jewett
Chief Engineer
