Mr. Kermit Geary,

R.F.D. #2

Walnutport, Pa.

Dear Sir:-

We received your letter regarding our program on the last frequency check and thank you very much for your kindness and interest in reporting same to us. This confirms your reception of this station and we are certainly glad to know that we are getting out as well as your report indicates. We are using an RCA 250K transmitter with 250 watts input, antenna is a 190 ft vertical. All equipment is RCA with exception being the Western Electric mikes. If you are interested in seeing some pictures of the layout here regarding programs both in studio and remotes, you can find two pages in the April 27th edition of Life magazine. Thank you again for your report, I remain

Yours very truly,

per. *J. P. Jopling* .....  
Chief Engineer
