QUITMAN, GEORGIA  
A DIVISION OF

JOHN R. BARLETT, OWNER  
WALTER E. BARDEN, GEN. MANAGER

September 22, 1947

Mr. Kermit Geary

RFD #2

Walnutport, Pennsylvania

Dear Mr. Geary:

Thank you for your report of reception of the signals of WKMA on Saturday, September 13, from 2:45 to 3:02 AM, EST.

I have compared your report with our log for times, and checked the text of the announcements and find them both accurate. Since I was on duty at the time and did the announcing, I can verify your report completely.

Our equipment here consists of an RCA 250-D Transmitter ( PP 805s plate modulated by PP 805s) feeding a 150 foot aluminum straight sided guyed tower through a 120 foot four wire balanced transmission line. The remainder of the transmitter house equipment consists of an RCA limiter, two turntables, mike and speech amplifier, and small control console.

The studio speech equipment is all Gates except for the custom built console and QRK turntables. We have an announcing booth, a production studio, and an auditorium, with the control room operator stationed so as to be able to see all of them.

The studios are located in Quitman proper and the program is fed to two lines going to the transmitter which is located on high ground one mile northeast of the town.

Thank you again for your report, and may all your reception be DX.

Sincerely yours,

*Joseph N. Ratti*  
(engr. WKMA)
