

Radio Station WMOC  
Covington, Ga.

Kermit Geary  
RFD #2  
Walnutport, Penn.

Dear Kermit,

This is to confirm your report of reception of WMOC on Nov. 20, 1948. You gave very good and accurate proof that you received us. I am glad to know that we are putting such a good signal into Walnutport now.

When you first received us some time ago, we were radiating 210 Watts instead of 250. This was due to a change in Antenna resistance which we did not discover and compensate for until recently. This means that you might receive us just a very little bit better than previously.

Many thanks for your cooperation and your fine report.

Very truly yours,

  
Robert L. White, Jr.  
Chief Engineer WMOC
