Warner Robins Broadcasting Company, Inc.

P. O. BOX 727

WARNER ROBINS, GEORGIA
November 3, 1954

Mr. Kermit Geary
RFD # 2
Walnutport, Pa.

Dear Mr. Kermit:

It was an extreme pleasure to receive your letter of October 29, and most of all to learn that we are being heard in my native state of Pennsylvania. We have had calls and letters from all over the South and Southeast, but believe me, it is a pleasure to hear from a fellow Pennsylvanian.

I have spent many happy hours in Philadelphia. However, my home is in the Pittsburgh area. I have been in the broadcast business some sixteen years in and about Pittsburgh before coming to Georgia two years ago. This explains my enthusiasm about your letter.

Needless to say, we were very pleased to learn how well our signal was received on Friday, October 29. We had made some changes on our ground system on that date and it was interesting to note that it had helped to increase our signal strength.

We are using a Collins equipment throughout, with a stainless 200 foot guyed tower with a ground system of 120 hard drawn copper wire radials 200 feet long, located 2.4 miles beyond the City Limits in bottom land.

I am enclosing a copy of the Warner Robins Story prepared by the Warner Robins Chamber of Commerce some two years ago. Since that time the population has exceeded the 20,000 mark.

Once again, Mr. Geary, may I say we were very happy to hear from you and receive your detailed log of our broadcast. Your log checks with our log sheet exactly.

Sincere warm wishes from the "Sunny South".

Sincerely yours,

Howard George
