Mr. Kermit Geary
RFD 2
Walnutport, Penn.

Dear Mr. Geary,

I imagine this verification is a little different from any you have received.

You called our schedule to a "T". It seems to be word for word as they were uttered, with just one word left out. Where you had Western Georgia, we say West Central Georgia.

Enjoyed your letter, and took the liberty to reproduce it in the attached folders which we will use on all outgoing mail until 500 of them have been used up. I mailed one to all local hams and they were quite interested.

We are located in that part of Georgia that was hit real hard by Sherman's march to the sea. Area showed no progress for many years, as we were pretty much as Germany now seems to be. But in the last thirty years have moved forward industrially. We have four large textile plants. The rural areas of our county shipped more peaches than any other county in the world until a few years ago when the farmers started turning to the beef cattle business. Our weather is ideal. Warm but above the mosquito and gnat territory.

Thanks again for your letter.

Yours very truly,

S. J. Carswell
