

January 21, 1992

Mr. Kermit Geary
1266 Riverview Drive
Walnutport, PA 18088

Dear Mr. Geary:

I am in receipt of your letter dated January 18. Thank you for writing the station and letting us know of your reception.

Indeed, your receiver did pick up WSTH-AM on the morning of January 10, 1992. WSTH-AM is licensed to Columbus, Georgia, with transmitter and tower in Phenix City, Alabama, which is adjacent to the city across the Chattahoochee River. Our daytime signal is 5,000 watts, with night signal of 500 watts. Because you received our broadcast at 6:25 am, our power was apparently running 5,000 watts.

Solar Broadcasting actually owns three radio stations which simulcast one signal. WSTH simulcasts with WSTH-FM, a station licensed to Alexander City, Alabama. We also own an AM facility in Alexander City, WXTH, which also rebroadcasts our FM signal.

My assumption is that, at approximately 6:30 am, when you lost our signal, many "daytimers" were signing on the air, thus creating more interference. As you know, our frequency of 540 kHz can be quite powerful under favorable conditions.

Again, I thank you for your letter, and wish you continued luck and success at your listening post.

Most sincerely,

A handwritten signature in blue ink, appearing to read "Len Shackelford", written over a horizontal line.

Len Shackelford
Operations Manager
WSTH-AM/WSTH-FM/WXTH-AM
