

KORL

Radio Honolulu, Hawaii

January 12, 1961

Mr. Kermit Geary
R.D. 2, Box 298
Walnutport, Pennsylvania

Dear Mr. Geary:

This letter will verify your reception report of our station. As you might know, we have recently changed our call letters from KKAA to KORL! We still operate on 650 KC with 10,000 watts of power and have a self-supported 330 foot tower. At the present, we do not have a map recording DX reports---however, offhand I would say that the majority of our reports come from New Zealand and Australia, a number of them from the western coast of the continental United States and occasionally we do receive letters from listeners on the East Coast. Thank you for your letter---we are always glad to hear from our distant listeners.

Aloha and Mahalo.

Sincerely,

James R. Markham
Chief Engineer
