Dear Kermit:

Your D-X report of our initial test broadcast was received and very sincerely appreciated. The portion of the program you listed in your letter is correct.

I was particularly interested in your detailed report of our signal strength, as well as the comment on the excellence of our tonal quality. Those are the kind of words a chief engineer likes to hear. Especially when it is the first station he has assembled and that is my case with K L I L.

Once again, thanks for your report and best wishes for continued success in your D-Xing hobby.

Very sincerely yours,
