RFD #2  
Walnutport, Pennsylvania

Dear Sir,

I really appreciated getting your reception report. It was the most complete and comprehensive one that we received and I am happy to verify it. I have a surprise for you, though. Our Transmitter here is of 1935 vintage, one of the old RCA Model 1-G's, and our tower is, I think, the shortest in the broadcasting industry....110 feet in height.

Sincerely yours,

*Rolland O. Looper*
