

February 11, 1964

Kermit Geary,  
R. D. 2, Box 298,  
Walnutport, Pennsylvania

Dear Mr. Geary:

Thank you very much for your report on our February 3 test. Our log confirms your report. I thank you especially for your very nice letter. We are always happy to receive and confirm QSL reports. We are glad to learn that you were able to receive our signal so well as far away as Walnutport.

We began regularly scheduled broadcast on December 2, 1964 and are looking to many years of prosperous broadcasting. We operate a Gates BC-250GY (250 Watt) transmitter into a two tower directional antenna system with our null toward the south by south-east.

We may use your letter for sales purposes. Your report was the best we have received in your area. We operate from sunrise to sunset and serve a well-populated suburban area with local news and good similar to that played on our test.

Tnx es 73's

Yours truly,

Kenneth L. Quinlan  
Chief Engineer  
WIN-U Radio  
Highland, Illinois

P. S. We will probably test again the first Monday in March. I was a HAM once myself. Lot's of luck in future DXing.
