Mr. Kermit Geary
R.F.D. # 2,
Walnutport, Penna.

Dear Mr. Geary,

I am in receipt of your letter dated December 15, and was very pleased to hear from you. I am glad that you receive our station so well and it comes in so clear.

We have a Raytheon Transmitter here, RA 1000, which is a 1000 watt transmitter of 1947 vintage. We run the final into a series fed 300 foot Wincharger Tower which very soon will have an added 17 feet of FM antenna. We have Raytheon studio equipment and Presto turntables.

Your copy was correct in every respect and if I had been keeping the log myself I don't think I could have done a more accurate job of it than what you have done. Everything was letter perfect.

I am sorry at this time I do not have any more verification cards on hand however we are expecting some in the near future and will send you one then. In the meantime I hope this letter will be satisfactory.

We are just a daytime station and have to close down during this month at 4:15 PM as we would cause channel interference with WBAL if we stayed on much later than that. We open up at 6:15 AM each morning except Sundays. On Sunday we open up at 8:00 CST.

Again I will say that I am very pleased to have heard from you and would be glad to answer any questions you might have on our station.

Sincerely,

EUGENE A. CHASE
Chief Engineer.
