Mr. Kermit Geary
Route 2
Walnutport, Pennsylvania

Dear Mr. Geary:

I greatly appreciate your letter reporting reception of our test program over Radio Station KSAC on 580 kilocycles with 5,000 watts power. It is only through these reports of our test programs that we are able to determine how the equipment is working.

Thank you.

Very truly yours,

Bernard Holbert
Chief Engineer
Radio Station KSAC
