Dear Sir:

This is to verify your reception report of WBVL
on December 5, 1955.

Our transmitter is Western Electric utilizing a
High Efficiency Class B Amplifier. The radiating
system consists of a $\frac{1}{4}$ wave vertical radiator
series fed by a pressurized coaxial line. A 48'
x 48' copper ground screen is used in conjunction
with 120 radials 260' long.

We Sincerely appreciate your report.

Yours sincerely,

RADIO STATION WBVL
