Kermit Geary
Haltoutport, Pa.

Dear Mr Geary:

I am very happy to verify your reception of our test transmission of Dec 10.

I hope you will pardon the delay in responding but we have been working extremely long hrs getting the station on the air and getting out the "bugs"; ~~at~~. We began regular programming at 2:45 pm on Dec 24, 6 AM to 10 AM EST.

I have been quite surprised at the response from your part of the country since you are in the deepest null in our pattern. Our main lobe is to the N.W. on a true bearing of 330°

Thanks for a most concise report and
Good Night

Paul Lawrence
Chief Eng.
