Hermit Seary
R. D. 2, Box 298
Walnutport, Pa.

Dear Mr. Seary,

I was happy to receive your report of reception of the test transmission from WFLW on Monday, December 17, 1956. Your report was correct and I wish to verify it. I was pleased to hear that our signal was strong and that the speech modulation was clear. I appreciate your congratulations. Our transmitter is a Gates and we use a shunt-fed antenna and operate with a power of 250 watts.

I have only been with WFLW since October, so appreciate the fine report. We have a test transmission every third Monday of the month at the same time 2:00 to 2:10 AM. Thank you for your fine report and a Happy New year to you.

yours in Christian radio,
Ralph T. Fordell
Chief Engineer at WFLW
Monticello, Kentucky
