Walnut port, Penn.

Dear Mr. Geary:

This is to verify your reception of our frequency test program of October 27, 1941, from 2:00 A.M. to 2:15 A.M. CST.

W I N N started operations on June 15, 1940 and operates on an assigned frequency of 1240 Kilo-cycles with a power of 250 watts and is owned and operated by the Kentucky Broadcasting Corporation.

We are using Collins equipment throughout, and I might add, with excellent results. Our Antenna is a quarter-wave Windcharger type, and is situated on top of the Tyler Hotel in Louisville, Kentucky.

I sincerely thank you for your reception report.

Very truly yours,

Al Rutherford
