Dear Kermit,

Thank you very much for your detailed reception report on our recent test transmission.

I am pleased to verify your reception of WKXO, 1500 kHz., 250 Watts ND from 12:01 to 12:47 a.m. E.S.T., February 14, 1977 during our equipment check and DX test.

Yours is by far the most detailed report of the 50+ we've had so far, with regard to your equipment and to the programming you heard; this is really appreciated!!! A few very minor corrections: antenna height is 143 feet, located off Glades Road and the area code is 606, but then again, you should see what some of the people quoted me as saying!

So far, we've had reports from Mass.(4), R.I., Conn., N.Y., N.J., Pa., Del., D.C., Md., Va., N.C., Fla., Ala., Ohio, Ont., Mich., Wis., Ind., Ill., Mo., Nebr., and Kansas, and my fingers (both of them) are well worn at the ends.

Once again, many thanks for your report.

Vy 73 & Gd DX,

Chris Bobbitt
