

30 Jan. '58

Mr. Kermit Geary

R.D. 2, Box 298

Walnutport, Pa.

Dear Kermit,

With greatest pleasure, let this confirm your reception of KPEL on the morning of 20 Jan. '58. Indeed it is heart rendering to the engineering staff to show such performance.

We certainly want to thank you for the swell signal report. The broadcast industry is mighty grateful to you fellows for the performance checks.

The transmitter is the G.E. XT-1-A, a KW during the day and $\frac{1}{2}$ KW nitetime. Antennae are two 194' towers in line N-S. At time of your reception, we were non-directional 1000 watts. We shall be there again on the 17 of next month, or every third Monday of the month. Will look forward to hearing from you in the future.

Do not hesitate to write me if moure specific information is wanted.

Yours very truly,

Chas. L. Guidry BS/EE

C/Engin.
