Dear Mr. Geary:

Thank you for your reception report, and from the data it appears that you did indeed receive WVLC during our proof of performance tests.

Our antenna is two tower directional, with the towers fed so as to give a cardioid pattern with a null at 308 degrees true. One tower is 216 tall, the other is 345, supporting an FM antenna, 5 bays, as well. Power is 1000 watts.

Enclosed is a bumper sticker.

Sincerely,

Howland B. Jones, Jr.
