Dear Sir:

This is to confirm your report of reception of this station from 7:00 pm to 7:15 pm EDST on September 27, 1958.

Your letter reporting the reception was most complete, and quite accurate. It was a pleasure to receive such a helpful listing of information, so unlike the unfortunately typical "I heard you, send me a QSL" type of report. Particularly informative was your accurate signal strength report; that is, listing the actual intensity in microvolts.

Thanks again for your report.

John A. McAulay

Chief Engineer
