Dear Mr. Geary:

Greetings!

Thank you for your second reception report of WCTN.

I responded to your first report, but our letter was returned because of a typo in the address. I've enclosed that verification letter which I trust will be sufficient.

I appreciate your interest in WCTN. We would welcome reception reports from any other AM DXers in the future. The furthest reception report received at WCTN was from Germany.

Wishing you good DXing in 1983!

Sincerely,

A handwritten signature in black ink that reads "David F. Reeder". The signature is written in a cursive, flowing style.
