

WCTR

INC.

CHESTERTOWN, MARYLAND

September 22, 1963

Mr. Kermit Geary
R.D. 2, Box 298
Walnutport, Pennsylvania 18088

Dear Mr. Geary:

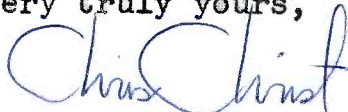

Thank you for your letter of September 16, 1963.

We are pleased to confirm your reception report of September 15, 1963. A check of our program log of that date indicates that your reception report is correct. We are always pleased and interested to know the strength and quality of our signal in various areas.

At WCTR, the RCA transmitter operates at 250 watts output using 813's in the final stage. The modulator also uses 813's. We use a non-directional 187-foot vertical antenna system. We are a daytime-only station and have been on the air since May 17, 1963.

Again, thanks - and best 73's.

Very truly yours,

Christopher R. Christ
Chief Engineer
