

January 15, 1981

Mr. Kermit Geary
R.D. 4, Box 321
Walnutport, Pa. 18088

Dear Mr. Geary,

Thank you very much for the reception report on November 26, 1980. It seems that the time frame of programming is identical to our log. The tape did contain parts of our broadcast before sign-off.

Such reception at that distance is unusual for us since we are a 1,000 watt directional station with daylight hours only. I have included a map with our pattern shown in millivolt contours for your convenience.

Have fun DXing. Good luck!

Very truly yours,

Roger DuFault
Chief Engineer
