Dear Mr. Geary,

Thank you very much for your letter of Oct 21, telling us of your very successful reception of our station. Other DXers reported that XERF really overpowered us most of the time, but since we are a daytime station we are not too concerned with this night time interference, though it does annoy us somewhat.

So, Mr. Geary, in verifying your DX report, I again would like to thank you for your letter and also for your best wishes. And if you ever happen to be travelling south toward Balt. then take a breather a stop in and say hello, and we'll show you around. Hoping to meet you some day.

Yours truly
