March 5, 1983

Dear Kermit;

It was a real treat to hear from you about our signal reaching into Pennsylvania. We appreciate you taking the time to write us with the information. I have enclosed a transmitter log copy of that morning and I hope it is the information you are looking for.

Unfortunately Eric Snow is no longer employed at WASY 1590 AM but I will be more than happy to answer any questions you have in the future. My name is Dan Dubonnet and I serve as operations manager for WASY and WFAN FM 102 in Mystic, Connecticut. Steven K. Johnson is now the program director here at WASY.

WASY is a 5000 watt AM during daytime broadcast hours and operates at 2500 watts during nighttime hours. We have been on the air since September 4th 1982 and are owned by Communications Broadcast Affiliates INC. Our format at WASY is basically an OLDIES format with two or three currents an hour. We are also working with an organization called "ALL HIT RADIO" out of Malden Massachusetts that supplies us with taped reel music and jingles as well as vignettes.

*24 hr. WASY 1590 AM GOLD*

*A Division of Communications Broadcasting Affiliates*

Once again we thank you for so accurately tracking our station on February 28, 1983, perhaps we should hire you as our monitor so we know exactly what and when our d.j.'s are doing.

Hope to hear from you again, and lets hope for "GREAT" atmospheric conditions always!

Thanks  
Operations Manager  
WASY 1590 Gorham

Dan Dubonnet
