April 25, 1988

Mr. Kermit Geary  
1266 Riverview Drive  
Walnutport, PA 18088

Dear Mr. Geary:

On January 24th WSKW went full-time by moving to 1160. Our daytime power is 10,000 watts, with nighttime output of just under 1,000 watts. We bought a new solid state transmitter from Nautel of Maine in Bangor. It's their Amphet 10 model, also on the air in the States at WKDJ and WGSF in Memphis, WAKR in Akron, KLZ in Denver, WONE in Dayton, WKOK in Sunbury, PA, WKIE in Richmond, KSSK in Honolulu, KSAH in San Antonio, KFAR in Fairbanks, WNLC in Waterford, CT, in addition to numerous facilities throughout Canada, Australia, and South America.

On the air at WSKW, we knew the Amphet 10 was a wonderful unit but didn't expect response from Poquonock, CT. Based on your detailed log of specific programming, it was indeed Skowhegan's AM you heard. For the record, our city of license is 14 miles northwest of Waterville. Skowhegan is an Indian name meaning "place to watch." With your reception of AM 1160, it's also a "place to listen."

Thanks for your reception report. We will use it to our advantage.

Sincerely,

A handwritten signature in blue ink, appearing to read "Alan W. Anderson", with a long horizontal flourish extending to the right.

Alan W. Anderson  
President
