March 24, 1982

Mr. Kermit Geary
R. D. 4, Box 321,
Walnutport, PA 18088

Dear Kermit:

On behalf of WYNZ Chief Engineer Ronald Malone, I wish to thank you very much for your fantastic reception report dated Friday, January 22, 1982. This letter verifies reception of our signal on January 22, 1982, between 5:31 and 6 p.m., EST. At the time, you were listening to our then-afternoon-drive-time-personality, Dean Rogers, who has since been replaced by Doug James (Dean now handles PM drive on our FM affiliate).

WYNZ(AM) transmits 24 hours a day with a 5-kw Continental xmtr (daytime nondirectional, nighttime directional), plus an older RCA BTA-5T 5-kw auxiliary xmtr and a phasor (antenna pattern switcher) made by CSP, Inc. of Doylestown, PA. Our live personality format uses the increasingly-popular syndicated taped "Music of Your Life" service (traditional adult MOR pop hits of 1938-1975), complemented by CBS Radio affiliation, our own superb four-person local news department, and our status as Greater Portland's outlet station for the Boston Red Sox, Boston Celtics, Boston Bruins, and New England Patriots.

We also co-own and operate a sister FM station, WYNZ-FM (100.9 MHz; 3-kw ERP), nicknamed "Y101", with a semi-automated soft adult rock sound. Both stations have had monumental impact in this market in the past year, much to the delight of many folks.

Thank you for your kind remarks about the prowess of our equipment! We're pleased to know we can put out a signal of such quality that far distant, even with ever-present co-channel interference from 97DJ (I know their case well, having been raised in Bergen County, NJ); considering the astonishingly intricate details of your accurate report, propagation conditions must have been swell that evening.

Kermit, thanks again for your kind note, and we hope you can tune us in again soon to enjoy the "Music of Your Life".

Sincerely yours,

Richard Ringenback
Overnight Air Personality and
Board Engineer, 97/WYNZ
