November 13, 1950

Kermit Geary,
RFD #2,
Walnutport, Pennsylvania.
Dear Mr. Geary;

RE: VERIFICATION OF
RECEPTION.

It was with a great deal of pleasure that we read your report of reception of WTAC - NBC in Flint.

Your report is correct. This is your verification. It is our regret that we do not have Verification Cards - as such. In view of the fact that reception reports are so seldom received, we feel qualified to refrain from having such cards printed.

We were quite surprised to learn that our signal had gone as far east. You know, that our signal is directional northward constantly. Comes sunset, we drop our output down to 500-watts from 1,000-watts.

According to your report, which we find correct, you heard WTAC on 600 kilocycles during the morning hours of November 8, 1950. The listening period was from 2:18 until 2:43. During that duration (as during most of the time that night) we were broadcasting election returns from the Flint City Hall. Leon McNew was at the City Hall. Larry DeBeau and Bob Flynn were at the studio giving other returns. It might interest you to know that WTAC was the only station giving election results directly from the City Hall. There are four AM stations and one FM station in Flint.

Should you again hear WTAC, please let us know.

Your return postage is being returned. We do not bother with such matters.

Sincerely,
FOR THE CHIEF ENGINEER:

JAMES HUGHES
Studio Control,
WTAC - NBC,
