FLAT RIVER, MISSOURI

SEPTEMBER 10, 1948

Office, Studio and Transmitter  
U. S. HIGHWAY 61

Telephone 1000  
FLAT RIVER, MISSOURI

Mr. Kermit Geary,  
R.F.D. #2,  
Walnutport, Penn.

Dear Mr. Geary;

Thanks for the reception report of September 7, 1948. You tuned in just in time--as your report of reception was listed at 1;43 A.M. Because we are scheduled to make checks The first Tuesday A.M. in Each month--From 1;30 To 1;45 A.M. C.S.T.--

I am very much pleased to hear that our signal is clear at that distance. Especially the speech portion of the test. I have been wondering about the speech on our tests, as our controll room is not equiped with sound proofing equipment. It is a fairly large room and with no sound proofing I was afraid it would be too garbled for distinct reception---and tooq there is a considerable amount of stray noised in here.

We have Collins equipment(Xntr) 300G--250 Watts. High level Modulation. Use Gates Remete Equipment. We're located 68 Miles South of St. Louis On hiway 61. ~~As~~ Our slogan here is "The voice of the Leadbelt" Since this is the leadbelt area.. In fact leadmining is about there is going on around here. I am originally from Little Rock, Arkansas. Came here Year ago. Regarding your reception of this station a year ago -June. I cannot verify that reception as I was not here at that time, and the log sheets have been sent to the main office in Cape Girardeau.

I suppose you got my name from the NNRC Paper. As I do not recall Mentioning it over the air. You did not say you belonged to the club . But I get several letters from the boys who do belong to the NNRC & The NRC. Always glad to hear from you. Thanking you for the nice letter. I remain

Sincerely Yours.

  
Verlen James, CE.
