

VERIFICATION--W9XBY--1000 watts, 1530 Kc. Kansas City, Mo.

This is to thank you for your report on the reception of W9XBY on 4/11/51 at 320 W. W9XBY is one of the 4 new "high fidelity" stations in the U.S., and is operated in the interest of higher quality radio transmission. The equipment used is NEW RCA-Victor 1-D, 1000 watt "high fidelity" transmitter and using new RCA-Victor amplifiers and velocity microphones. Studios are located on the 29th floor of the Power & Light Building--transmitter near 86th & Wornall Road.

Equipment is operated entirely by student-engineers enrolled in the training division of FIRST NATIONAL TELEVISION, INC., who also own and operate Television Station W9XAL in synchronization with voice channel W9XBY. Complete details regarding our thorough technical training will be sent on request. THANKS!

FIRST NATIONAL TELEVISION, INC.
