R.F.D. #2  
Walnutport, Penna.  
Dear Kermit,

I received your letter of Feb. 22, 1952, concerning the reception of our test program on the morning of Feb. 21, '52, with our new RCA BTA-5G transmitter.

The sample log of our test you sent corresponds perfectly with ours.

You mentioned in your letter you hoped we soon received the necessary approval from the FCC to begin regular operation. It just so happened that on Feb. 22, we did get permission to go on! The day after you heard our tests.

I don't remember if I told you or not, but Picayune is a small town about 50 air miles from New Orleans. Population of about 8,000. It is very seldom you find a station this large in a town this size, so naturally we are quite proud of our set up.

Our transmitter is the latest RCA design, the new BTA-5G. We use the new FM and TV tube in the final and mod. stage, the RCA 5762's. The transmitter is very compact, not much larger than the 1 KW job.

Thanks again.

Very truly yours,

*Lloyd E. Baker*
