

March 5th the day you received Radio Curom happened to be the day after Carnaval. If you per chance received us a few hours earlier you would have heard the music played by local musicians live on trucks and floats as we were broadcasting live from the Carnaval parade route. In fact we had 5 different broadcast stations along the parade equipped with wireless microphones so one tuned to Z-86 wouldn't miss anything as reports were broadcast continually from all the sites. It was a fun time for all the staff but also exhausting.

I will close for now. Thanks again for your excellent report.

Best Wishes and Good DXing.

Craig Siegenthaler

Chief Engineer

Radio Curom - Z86
