

CARIDAD CORDERO No. F5A, JARDINES METROPOLITANOS

SANTIAGO, REP. DOMINICANA / APTDO. POSTAL 556 / TELS.: 582-1530 y 583-1530

February 14, 1980.

Mr. Kermit Geary
R.D. 4, Box 321
Walnutport PA 18088
E. U. A.

Dear Mr. Geary:

We appreciate very much your kind letter dated February 5, 1980, with your reception report of our RADIO ACCION, in the frequency of 1530 KHZ., midium wave, made on that same date between 2:15 and 3:03 A.M.

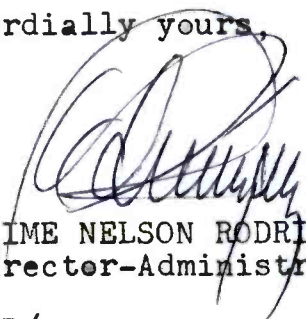

We have a Contel, 5000 watts transmitter, made by Continental Electronics Wholesale Corporation of Hialeah, Florida, with a 160 feet, omnidirectional antenna (1/4 wave).

This way we confirm your report. As we are in the air 24 hours, 7 days a week, we trust that you will be able to tune in with us again some time.

We wish to take the opportunity to invite you to listen to our sister radio station in Santo Domingo, which is called Radio Santo Domingo, in the frequency of 760 KHZ. midium wave, and kindly report should you be able to pick it up in your Hammarlund HQ-180.

Again many thanks for your report, and we look forward to hearing again from you in the near future.

Cordially yours,

JAIME NELSON RODRIGUEZ
Director-Administrador

JNR/cgp.
