U. S. A.

Dear Kermit:

I have received your report to our test program on Radio Cristal ~~xxxx~~ on February 23, sorry if I am so late in replying, but I have been very busy and waiting for more reports. Not many were received.

Your information regarding the program is correct and I am enclosing your QSL card as a verification. It is a good thing to know that you heard this program being so close to New York and WMCA on the air at the same time. By the way, I did not find the location of your town in the map as it is so small, I had to see several maps until I found it at last.

I thought that perhaps you had a loop to help you null WMCA, but then I see that you are using an L-type antenna, but 60 meters is too long. Yes, the voice you heard in the program was mine, I was the one to speak with the exception of several recorded ID that the station uses in their daily programs.

I hope to see you, in case I can attend the next Convention to be celebrated in New Jersey.

Thank you for your congratulations.

Sincerely yours,

César Objío
