West-Indies

Dear Friend,

It is, indeed, a great pleasure for me to send you an answer confirming the reception of our program in the night of November 8, 1956. All the facts listed in your letter are correct. Indeed, we are very pleased to receive a letter confirming that our broadcast installations are efficient. I confess that being an announcer, I was compelled to refer to the technical knowledge of the chief operator Mr Abraham Fougy and so for further informations.

Our Broadcasting Station is rather a very little one compared to the 50 Kilowatts installations in the U.S. A. In fact, our transmitter is a modified GATES 250 G. Y. We employ a pair of 833's at our final stage. They feed a 800 Watts signal to an half wave inverted L antenna in the East-West direction. All our equipment is made by Gates company. Except pick-up. We are very pleased, once again, to have contacted you and I suppose that like my former correspondents, you are a specialist listener in the only standard broadcast band. I agree that it is a hobby very instructive and very profitable and although I am not a radio specialist, I like to spend long minutes of foreign broadcast listening. Haiti is a french speaking country though situated in the Caribbean are a just between the two Americas. - So Almost all young Haitians profess a marked tendency towards English or Spanish. For me I'm studying the English language and would

be so happy to find a correspondent in you,
Allow me to introduce myself to you. I am an-
nouncer at Radio Port-au-Prince, but I am
a student at the University of P.-au-P in
The faculty of Law. I am also a Book
Keeper.

I would be very happy to hear from
you again, Dear American Friend, and at the
end of this letter, allow me to remain

Yours Very Truly

Ernest Ricot.

Jeficot

N. B. Dear Friend,

Excuse me if I send you
This letter so later. This last day, there was in
my country a bad political situation. —
