Mr.
Kermit Geary,
R.F.D. # 2.
Walnutport, Pa.

Dear Sir:

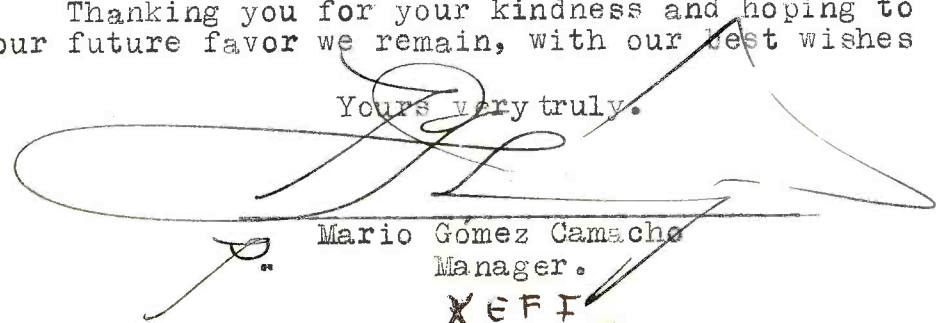

It is a great pleasure for us to receive your very interesting letter of Sept. 17 inst.

We are actually testing a 1000 Watts brand new -- equipment which we hope will be ready for normal operation in a few days, so we will be on the air every night after - 12 P.M. Central Time for test programs. As your reports are indeed interesting for our final adjustments and tuning, - we ask you to be so kindly and follow us in our programs and hope to receive your reports and comments.

Please insist on making a sharp comparison with - the program you mention in your letter as we have been making slight changes in our final step which might improve or not at a long distance our ~~our~~ transmission.

Thanking you for your kindness and hoping to receive your future favor we remain, with our best wishes

Yours very truly.

Mario Gómez Camacho
Manager.
