February 27, 1951

Kermit Geary
R.F.D. #2
Walnutport, Pennsylvania

Dear Mr Geary:

Many thanks for your letter of February 19, reporting reception in Walnutport of XEOR, Reynosa, Monday morning February 19.

The transmission which you heard was a test broadcast prior to going back on the air after a fire which totally destroyed the XEOR transmitter building and equipment. The new equipment had just been installed in a temporary structure and the station resumed commercial operation that Monday morning at 6 AM. Radiation is from a quarter-wave guyed vertical antenna which, of course, remained standing after the fire. The XEOR transmitter is located about 3 miles south of Reynosa on the Reynosa-Monterrey highway.

We are glad to have your report and to know that our new equipment is functioning so well.

Very truly yours,

Robert N Pinkerton
