Mr. Kermit Geary,  
R. F. D. #2,  
Walnutport, Penn.  
U. S. A.

Dear Radio Friend And Good Neighbor:

Many Thanks for a swell report. It was 100% perfect, and correct to say the least.

Our transmitting equipment was rebuilt by -  
Roa & Roa Radio Ingeniería. Our frequency is 1280 kcs and we  
have an output of 500 watts.

What you heard is a regular remote control-  
broadcast feature from the Arena Monterrey. People here are -  
great Boxing enthusiasts and we endeavor to capitalize on these  
regular Saturday night features since we feel that we are ---  
geally rendering a public service.

We shall feel highly honored if you will --  
listen in whenever you possibly can, and of course, will be fla  
attered to hear from you now and then.

You are to be congratulated for the great --  
thoughts as set forth in your letter and want to say that I --  
feel safe in saying that all of humanity's sacrifices and ----  
privations shall not have been in vain.

With my best wishes for your continued good-  
health and success, I beg to remain,

Yours very sincerely,

JESUS GONZALEZ  
ADMIN.
