Dear Kermit,

In the rush to get the station on the air and operating satisfactorily, I have not been as prompt as I would like to have been in answering several DX reports such as yours. This is to confirm reception by you of our station and we are very pleased that you were able to receive us so clearly. Guess I ought to get a raise. This morning I am down at the transmitter working a shift and trying to keep my eyes open in as much as I opened up this morning and went to a party last night. We should like to hear from you again if you run into us on the air waves again.

Sincerely,

John H. Thomas
Chief Engineer
