Walnutport, Pa.

Dear Kermit,

Thank you so much for your very fine reception report of our frequency check transmission of last Saturday, March 17. It was about the most complete that I have ever received here or at any other station where I've worked. Your log was, as close as I can remember, word for word as I transmitted it. It is gratifying to know that our KW is doing so well.

We are comparatively new in the broadcast industry, having officially signed on the air last November 19. So far we are doing pretty nicely, and the future looks nothing but better.

We conduct frequency test broadcasts the third Saturday of each month, and I hope you will listen for us again.

Thank you again for your very nice and welcome letter.

Sincerely,

Douglas E Ames
Chief Engineer
