Mr. Kormic Geary
1266 riverview Drive
Walnutport, PA 18088

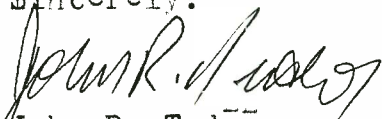

Dear Mr Geary,

I am pleased to confirm your reception of W C X N Radio on Dec. 5, 1985. Because our station has been on the air just under three months, reception reports such as yours are greatly appreciated.

WCXN operates with a Harris MW-10 transmitter reduced to 3.82kw during daytime hours, and with 1kw during critical hours. Our antenna is a non-directional vertical radiator of the folded unipole design.

Thank you for taking the time to write to us about your reception of our signal.

Sincerely:

John R. Tudor
Chief Engineer
