Dear Mr. Greary:

In reply to your letter concerning the confirmation that you picked up our signal from Franklin, North Carolina is correct. We are 1480-WLTM and am surprised also to hear that our signal can be heard so far away. The following information will fill in any questions or words you may have missed concerning our sign off.

The announcer on the air at the time was Keith Curtis, asking everyone to "Get out of bed in time to shine with Ron Franklin tomorrow." He added the weather and "May God bless you and keep you is our prayer". 5:27 is your sign off: "This concludes another broadcast day for WLTM in Franklin, North Carolina. WLTM is owned and operated by Mountain Broadcasting Company and serves you from the Highlands Road at the Franklin overpass. We hope that you have enjoyed our programming for today and will join us tomorrow morning when WLTM will again return to the air. On behalf of the management and staff this is Yvonne Rogers, bidding you a very pleasant good evening! Then the "Star Spangled Banner" closes us out.

WLTM is 1480 kiloHertz, is a 5000 W-D station.

Thank you very much for your nice letter and feel free to write us at any time, just to keep in touch.

Sincerely,

Joe M. Henry
General Manager
