Dear Mr. Geary,

Your reception of our radio station seems amazing to me, seeing as I live 20 miles from the station and can't pick it up past 6:30 pm. Your reception of our sign off was correct. Miss Butler's name is Mitt as in Mystle, so don't feel bad, no one gets her name right.

Thank you for letting us know our signal is carrying so far at night. We are a 5000 watt daytime, 500 watt pre-sunrise station. We sign-on at 6am. We sign-off at sunset.

Sincerely,

Drew McLain
