Mr Kermit Geary,
R.F.D. #2, Walnutport, Pa.

Dear Kermit,

Was very happy to receive your interesting letter of 1-2-49. Was very disappointed however to hear that you didnot receive my verification of your reception report on 4-5-48. Am very happy that I have the privilege to confirm it personally at this time however. I do realize the importance of Broadcast Engineers full cooperation in matters of this kind due to the fact that I am both a B.C. Engineer and a "HAM". My call is W4ORM.

Yours was the most complete report I have received in some time. The morning of 1-2-49 I was on the aid from 12:00 Midnight until shortly after 4:00 AM. You evidently were not listening at that time as I have not received a report of that. (Have to get a little sleep I guess).

Of course I would like to verify the report of your reception on New Years Eve. It was correct in every detail with my log except that your sign off was 2:02 AM..... my log says sign off was at 2:03 AM. However we won't squabble over one minue as these Western Union cloaks we have are never right.

Best of luck to you on your DX activities and if we can be of further assistance to you and your cause please don't hesitate for one minute to call on us.....

Best of 73's and Dx to you,

 W4ORM
