

January 14, 1976

Dear Mr. Geary,

KIMB RADIO did in fact run an equipment test broadcast on Jan. 5, 1976, on Class three Regional Channel 1260, with a power of 1000 watts from Kimball, Nebraska. This test took place between 12:30am and 12:59am Mountain Standard Time. We broadcasted only three 1,000 c.p.s. test tones at 12:30:05 to 12:31:25, at 12:45 to 12:45:20, and one at 12:57:20 to 12:59:10. We concluded out test time at 12:59:45.

We have received reports from Nebraska, Colorado, Kansas, Washington, Oregon, and Ohio. All reporting good reception. Thanks for your reply.

Sincerely,
